Case Study: **Revolution Tea**

Revolution Tea keeps
their brand steaming with
delicious six-color process packaging.

The Challenge

Create a dynamic retail package that would intrigue buyers and promote the uniquely good taste of Revolution Tea products.

The Solution

Stunning photography and beautiful graphics combined with Paragon screening technology allowed All Packaging to reproduce product images in vivid detail. Add to that six color hexachrome inks with bright florescent colors and inline UV coating and you've got an eye-catching, highly effective package representative of the quality product inside.
